

WE WILL NOT FORGET

Resources for Civic Engagement for the November 14 Elections

Listed below are several resources available to your chapter to assist in launching programming for legislative action in your service communities. Use these to assist you in developing Get Out The Vote campaigns, hosting candidate forums, helping seniors get to the polls, and teaching young people about the importance of the vote. The **Potomac (VA) Chapter** is developing programming across all of our facets and is also a resource to your chapter.

For more information and detailed descriptions of each organization/website/app please visit the Potomac Links' Facebook page or send an email: info@potomaclinks.org. The Potomac (VA) Chapter will also be sending out monthly updates on the latest news on the voting rights front.

Our hope is to mobilize Links across the nation to engage in today's civil rights movement. So many lives have been lost. So many of us remain unable to exercise this most important American right. We have determined that the one thing that we can't do is nothing. Too much is at stake.
